SECURE STORAGE & RETRIEVAL

We offer **confidential and secure conventional storage** for all your documents, freeing up valuable floor space, giving you a clutter free working environment. All files are stored in boxes in our modern warehouse facility. We index all your files for easy retrieval, enabling prompt delivery of your files when requested. We can return your documents to you on request via Legal Post, next day delivery, special delivery by our own courier service or scan on demand electronic format - the choice is yours.

There is a 50% reduction on retrievals for Legal Post members.

BESPOKE SCANNING

As well as storing your documents, we can scan the documents according to your requirements. Once scanned, the images can be delivered to you on CD or DVD, or you can access the image via the web.

With our **state of the art equipment** we can scan a large volume of documents, drawings and plans of various sizes up to AO.

You Access...

ONLINE ACCESS

This is fast becoming the most popular way of storing and retrieving documents. You can have remote **access to your files, 24/7**. Access to this service is password restricted and you will have piece of mind that all digital files are automatically backed up.

You have complete control of your files, which you can view, download, print or send to clients or colleagues anytime, anywhere.

SECURE DESTRUCTION

We retain your hard copy documents for a period of 3 months after the documents have been scanned, unless otherwise agreed with you. On expiry of the agreed period, **we destroy your documents safely** and issue a Destruction Certificate.
